Test comments:

The sum of unidentified phthalates is calculated as DEHP equivalent.
 The analyses have been performed for all phthalates of ortho-Phthalic acid.

Phthalates were NOT DETECTED in the sample.

If the product is for children below 3 years the sample shall comply with the threshold of 0,05 % (500 mg/kg) according to "BEK Nr. 855 af 05/09/2009 and the European Regulation no 1907/2006/EF of 18 December 2006, annex XVII"
 The sample complies for both children below and above 3 years.

The sample also complies with "BEK nr. 1113 af 26/11/2012"

*) Not included in the accreditation.
 Um(%): The expanded uncertainty Um is equal to 2 x RSD%, see also www.eurofins.dk. Keyword: Uncertainty.

Legend:
 RSD : Relative Standard Deviation.
 < : less than. n.d.: not detected.
 > : greater than. n.m.: non-measurable.
